Malieveld

**18.00** hrs

Finish:

The 8th of September is the start of the new political season in our municipality. Let's hope everybody had a proper rest, because on their first day back at work we have an urgent message:

**It's now or never for the climate. This year we really should accelerate the energy transition to top speed.**

Do you also feel it's time to go full throttle for the climate, green and justice? Please join our short bike parade through the centre, past the Peace Palace and to the Provinciehuis.
